

Meanwhile Wycombe Wanderers resume their Rothmans Isthmian League Division One programme tonight (Tuesday) after a break of 24 days, with a visit to lowly **Woking**.

Wycombe's last league match was at Oxford City on Saturday, January 11, when they won 1-0 thanks to a goal from mid-field player Mick Holifield, who, unfortunately for the Blues, is unavailable for tonight's match.

Since they overcame Wycombe 1-0 last March, Woking have gone through a sticky period and so far this season have recorded only six victories from 24 games. Only three teams — Hitchin, Walton and Bromley stand below them in the table.

Among the players they have lost since last season are Christmas, Chapple, who has turned pro with Southern League Guildford, Hutchins (to Worthing and then Hampton) and Underwood, who has joined Slough Town.

To replace them, manager Trevor Smith has signed on the former Wycombe striker Trevor Waughman, who has also played for Sutton and Kingstonian during the past few seasons. But despite his arrival Woking are finding goalscoring most difficult — only 28 in 24 games.
